Mikron in the Pharma/Medtech Industry

CHF **211.0** million net sales in 2023

(57% of total net sales)

Led by the Mikron Automation business segment, which generated more than 90% of sales in the medical and pharmaceutical technology industry, 2022, both business segments of the Mikron Group were able to achieve significant growth in this market segment and open up new markets.

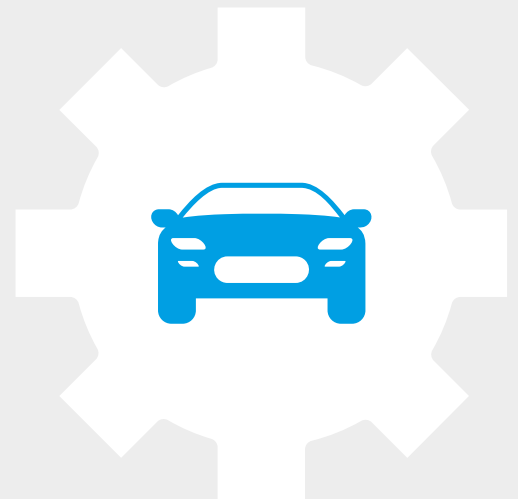

Mikron in the Automotive Industry

CHF **27.0** million net sales in 2023

(7% of total net sales)

While the share of this market segment in the Group's total annual net sales fell significantly in 2021, Mikron has been able to stabilize market share in 2022 and to win projects for new applications outside the combustion engine in all three divisions.
